Femmes + Empowering women and girls

Femmes+ is a spin-off from our very successful project that was completed in October 2022. The new project is solely about empowering women and girls in Bouafle in Côte d'Ivoire.

Teaching chess in several schools and communities is teaching women and girls to be confident and skilled contributors. Women's football will be started using the 50 footballs that are on their way to Côte d'Ivoire. As we buy more sewing machines, we are creating entrepreneurs, with an income stream that we hope will move the project to be self-sufficient in the near future.

The project is led by Béatrice Zre, a former member of the Paddington Rotary Club, and now a member of the Yamoussoukro Président Rotary Club. It is further supported by Mac Purcell, Rotary Global Hub, and Christopher Major from the Rotary eClub of Silicon Valley.

Many thanks to Mac Purcell and Christopher Major who, on behalf of Rotary, donated a 43-inch Nasco TV, an I'lux Woofer and a 5-meter HDMI cable. These devices will be used to teach chess in schools in Marahoué.

We recall that the interest of the game of chess is to stimulate, in young people, the sense of reflection and strategy. Any bonus for learning mathematics but also other school subjects such as French, science and languages.
